INDEX TO COLORADO FIELD ORNITHOLOGIST and C.F.O. JOURNAL

Issues No. 1 through 32, Winter 1967 through Winter, 1978

(Editor's Note: We have thought for a couple of years that an index to our publication would be valuable. We invited our Grand Junction contingent to take on the task, and they performed admirably. We thank Kris Graves and Nyla Kladder for their work in putting together the data for the index. Their contributions are identified in the credit lines.

We also consulted with one of our librarian members, who informed us that splitting the index into subsections, instead of lumping it, is becoming more common. We certainly think it is more usable and therefore have constructed it this way).
